HUDHA FARASHA V P

Entry-Level AI Quality Engineer

hudhafarasha97@gmail.com | +91 9895884756 | linkedin.com/in/hudha-farasha-vp

CAREER OBJECTIVE

Information Technology student seeking an entry-level AI Quality Engineer opportunity. Experienced in developing mobile and web applications through academic projects, with foundational knowledge of Python, SQL, OOP, and database technologies. Interested in software testing, test automation, and evaluating AI-powered applications.

EDUCATION

Bachelor of Technology in Information Technology 2023 – 2027
Government Engineering College, Idukki, Kerala CGPA: 6.88/10

Higher Secondary Education 2020 – 2022
Kunnamangalam Higher Secondary School Percentage: 93%

TECHNICAL SKILLS

Programming: C, Python, Java
Database: SQL, Firebase Firestore
Web Development: HTML, CSS, JavaScript
Mobile Development: Flutter
Programming Concepts: Object-Oriented Programming (OOP)
Tools: Git, GitHub, VS Code, Android Studio, MS Office
Soft Skills: Communication, Teamwork, Problem Solving, Leadership

RELEVANT TECHNICAL LEARNING

Python and Web Automation: Learning automated testing using Playwright, Pytest, test cases, assertions, and test reporting.
REST API Testing: Learning HTTP methods, status codes, JSON response validation, and API testing using Postman.
AI and LLM Evaluation: Learning prompt testing, hallucination detection, response accuracy, relevance, groundedness, and LLM evaluation using Promptfoo and DeepEval.
Mobile Automation Testing: Learning Android application automation testing using Appium.

PROJECTS

Haritham – Smart Waste Management System Flutter, Firebase Firestore

- Built a smart waste management system to optimize garbage collection and improve efficiency in Panchayats.
- Developed a Flutter mobile application with Firebase Firestore for backend data storage and retrieval.

MindLog – AI-Powered Reflection and Productivity App React Native, Expo, Supabase

- Developed a journaling application to help users track thoughts, emotions, and productivity patterns.
- Incorporated structured journaling, tagging, AI-generated summaries, activity timelines, and combined task, habit, and reflection tracking.

Local Economy Operating System

- Built a mobile platform connecting local businesses and users for service discovery and transactions.
- Implemented user onboarding, service listings, booking and interaction features, and real-time updates.

Personal Portfolio Website

- Designed and developed a responsive portfolio website using HTML, CSS, and JavaScript.
- Showcased projects, technical skills, certifications, education, and professional profile.

INTERNSHIP

Cyber Security and Ethical Hacking Intern 08 Jun 2026 – 14 Jun 2026
Cloudnex Infotech, Kochi, Kerala

- Completed a 7-day internship focused on Cyber Security and Ethical Hacking.
- Gained practical exposure to cybersecurity concepts and ethical hacking practices.

WORKSHOPS AND TRAINING

Python for Data Science Workshop – IIT Palakkad Feb 2026

- Used Python with NumPy and pandas to load, clean, and analyse datasets in a hands-on workshop.
- Understood fundamentals of data handling, cleaning, and interpretation.

CERTIFICATIONS

- Edge Computing in a Cloud Computing World
- Cloud Security Operations
- Artificial Intelligence for Cybersecurity
- Building a Cybersecurity Awareness Program
